## Review Methodology:

We've thoroughly tested each 3D Sex Game hands on, pardon the pun.

All games have been subjectively ranked from 0 to 5 in 38 individual sub categories. Each major category is an average of its sub category rankings.

In turn, the overall ranking is an average of all major categories.

## Categories:

**Sexual Activities** - Various foreplay and sexual techniques offered in the game

**Characters & Locations** - Variety of different models and locations including ability to customize various character attributes.

**Graphics & Sounds** - The quality of animation, graphics design, sound effects & voices, and overall resolution.

**User Interface** - The ease of use for moving and manipulating the characters, objects, and camera angle, as well as overall menu navigation.

**Game Play** - A measure of how enjoyable the game is to play, how difficult it is to master, and whether or not it's a turn on.

**Pricing** - Not the actual cost, but a measure of value weighing the cost against the overall quality of the game.

## Ranking System:

- 0 = non existent
- 1 = poor
- 2 = below average
- 3 = average
- 4 = above average
- 5 = excellent
